WARNING

Death, serious injury, or fire hazard could result from improper connection of this instrument. Read and understand this manual before connecting this instrument. Follow all installation and operating instructions while using this instrument.

Connection of this instrument must be performed in compliance with the National Electrical Code (ANSI/NFPA 70-2011) of USA and any additional safety requirements applicable to your installation.

Installation, operation, and maintenance of this instrument must be performed by qualified personnel only. The National Electrical Code defines a qualified person as “one who has the skills and knowledge related to the construction and operation of the electrical equipment and installations, and who has received safety training on the hazards involved.”

Qualified personnel who work on or near exposed energized electrical conductors must follow applicable safety related work practices and procedures including appropriate personal protective equipment in compliance with the Standard for Electrical Safety Requirements for Employee Workplaces (ANSI/NFPA 70E-2012) of USA and any additional workplace safety requirements applicable to your installation.

ADVERTENCIA

Una conexión incorrecta de este instrumento puede producir la muerte, lesiones graves y riesgo de incendio. Lea y entienda este manual antes de conectar. Observe todas las instrucciones de instalación y operación durante el uso de este instrumento.

La conexión de este instrumento a un sistema eléctrico se debe realizar en conformidad con el Código Eléctrico Nacional (ANSI/NFPA 70-2011) de los E.E.U.U., además de cualquier otra norma de seguridad correspondiente a su establecimiento.

La instalación, operación y mantenimiento de este instrumento debe ser realizada por personal calificado solamente. El Código Eléctrico Nacional define a una persona calificada como "una que esté familiarizada con la construcción y operación del equipo y con los riesgos involucrados."

El personal cualificado que trabaja encendido o acerca a los conductores eléctricos energizados expuestos debe seguir prácticas y procedimientos relacionados seguridad aplicable del trabajo incluyendo el equipo protector personal apropiado en conformidad con el estándar para los requisitos de seguridad eléctricos para los lugares de trabajo del empleado (ANSI/NFPA 70E-2012) de los E.E.U.U. y cualquier requisito de seguridad adicional del lugar de trabajo aplicable a su instalación.

AVERTISSEMENT

Si l'instrument est mal connecté, la mort, des blessures graves, ou un danger d'incendie peuvent s'en suivre. Lisez attentivement ce manuel avant de connecter l'instrument. Lorsque vous utilisez l'instrument, suivez toutes les instructions d'installation et de service.

Cet instrument doit être connecté conformément au National Electrical Code (ANSI/NFPA 70-2011) des Etats-Unis et à toutes les exigences de sécurité applicables à votre installation.

Cet instrument doit être installé, utilisé et entretenu uniquement par un personnel qualifié. Selon le National Electrical Code, une personne est qualifiée si "elle connaît bien la construction et l'utilisation de l'équipement, ainsi que les dangers que cela implique".

Le personnel qualifié qui travaillent dessus ou s'approchent des conducteurs électriques activés exposés doit suivre des pratiques en matière et des procédures reliées par sûreté applicable de travail comprenant le matériel de protection personnel approprié conformément à la norme pour des conditions de sûreté électriques pour les lieux de travail des employés (ANSI/NFPA 70E-2012) des Etats-Unis et toutes les conditions de sûreté additionnelles de lieu de travail applicables à votre installation.

WARNUNG

Der falsche Anschluß dieses Gerätes kann Tod, schwere Verletzungen oder Feuer verursachen. Bevor Sie dieses Instrument anschließen, müssen Sie die Anleitung lesen und verstanden haben. Bei der Verwendung dieses Instruments müssen alle Installation- und Betriebsanweisungen beachtet werden.

Der Anschluß dieses Instruments muß in Übereinstimmung mit den nationalen Bestimmungen für Elektrizität (ANSI/NFPA 70-2011) der Vereinigten Staaten, sowie allen weiteren, in Ihrem Fall anwendbaren Sicherheitsbestimmungen, vorgenommen werden.

Installation, Betrieb und Wartung dieses Instruments dürfen nur von Fachpersonal durchgeführt werden. In den nationalen Bestimmungen für Elektrizität wird ein Fachmann als eine Person bezeichnet, welche "mit der Bauweise und dem Betrieb des Gerätes sowie den dazugehörigen Gefahren vertraut ist."

Qualifiziertes Personal, das an bearbeiten oder herausgestellte angezogene elektrische Leiter sich nähern, muß anwendbare Sicherheit bezogener Arbeit Praxis und Verfahren einschließlich passende persönliche schützende Ausrüstung gemäß dem Standard für elektrische Sicherheitsauflagen für Angestellt-Arbeitsplätze (ANSI/NFPA 70E-2012) der Vereinigten Staaten und alle zusätzlichen Arbeitsplatzsicherheitsauflagen folgen, die auf Ihre Installation anwendbar sind.

Safety Precautions

The following safety precautions must be followed whenever any type of voltage or current connection is being made to the instrument.

- When connecting to electric circuits or pulse initiating equipment, open their related breakers. DO NOT install any connection of the instrument on live power lines.
 - Connections must be made to the instrument first, then connect to the circuit to be monitored.
 - Wear proper personal protective equipment, including safety glasses and insulated gloves when making connections to power circuits.
 - Hands, shoes and floor must be dry when making any connection to a power line.
 - Make sure the unit is turned OFF before connecting probes to the rear panel.
 - Before each use, inspect all cables for breaks or cracks in the insulation. Replace immediately if defective.
 - If the equipment is used in a manner not specified in this user's guide, the protection provided by the equipment may be impaired.
- These safety precautions are repeated where appropriate throughout this manual.

Medidas de seguridad

Las medidas de seguridad siguientes deberán observarse cuando se realice cualquier tipo de conexión al instrumento.

- o Antes de hacer cualquier conexión, deberá enchufarse el conector de seguridad verde a tierra.
- o Cuando se haga conexiones a circuitos eléctricos o a equipo de activación por pulso, deberá abrirse sus respectivas cajas de seguridad. NO deberá hacerse ninguna conexión del instrumento en líneas eléctricas bajo tensión.
- o Las conexiones deberán hacerse primero al instrumento y, luego, al circuito a ser monitorizado.
- o Al hacer conexiones a circuitos eléctricos, deberá utilizar anteojos y guantes protectores.
- o Sus manos, zapatos y el piso deberán estar secos en todo momento en que se haga una conexión a un cable eléctrico.
- o Verifique que la unidad esté DESACTIVADA antes de conectar sondas en el panel posterior.
- o Previo a cada uso, deberá verificarse que los cables no estén rotos y que el material aislante no tenga rajaduras. Reemplace de inmediato cualquier parte defectuosa.

Mesures de Sécurité

Les mesures de sécurité suivantes doivent être prises chaque fois qu'un type de connexion quelconque est effectué sur l'instrument.

- o Connecter d'abord la prise de terre de sécurité verte (terre) avant d'effectuer toute autre connexion.
- o Ouvrir les disjoncteurs correspondants lors d'une connexion à des circuits électriques ou à des équipement de génération d'impulsions. NE PAS effectuer de connexion d'instrument sur des lignes électriques sous tension.
- o Une fois toutes les connexions de l'instrument effectuées, connecter au circuit à contrôler.
- o Porter des lunettes de protection et des gants isolants pour effectuer des connexions aux circuits électriques.
- o S'assurer que les mains, les chaussures et le sol soient secs lors de connexions à une ligne électrique.
- o S'assurer que l'unité est ÉTEINTE avant de connecter les sondes au panneau arrière.
- o Inspecter tous les câbles, avant chaque utilisation, pour s'assurer que les isolants ne sont pas coupés ou fendus. Remplacer immédiatement tous les équipements défectueux.

Sicherheitsvorkehrungen

Die folgenden Sicherheitsvorkehrungen sind immer dann zu befolgen, wenn eine Verbindung zum Instrument hergestellt wird.

- o Schließen Sie zuerst die grüne Sicherheits-/Erdleitung an, bevor Sie eine andere Verbindung herstellen.
- o Öffnen Sie beim Anschluß an elektrische Stromkreise oder Impulsauslösungseinrichtungen die entsprechenden Unterbrecher. Es dürfen KEINE Anschlüsse an das Instrument unter stromführenden Spannungsleitungen montiert werden.
- o Die Verbindungen müssen zuerst am Instrument und danach an der zu überwachenden Schaltung hergestellt werden.
- o Tragen Sie Schutzbrillen und Isolierhandschuhe, wenn Sie Anschlüsse an den Stromkreisen vornehmen.
- o Hände, Schuhe und Fußboden müssen trocken sein, wenn Sie Anschlüsse an den Stromkreisen durchführen.
- o Stellen Sie sicher, daß das Gerät AUSgeschaltet ist, bevor Sie an der rückwärtigen Konsole Meßfühler anschließen.
- o Prüfen Sie vor jedem Gebrauch alle Kabel auf Bruchstellen und Risse in der Isolierung. Wechseln Sie schadhafte Kabel sofort aus.

Battery Safety Precautions

Observe the following precautions when inspecting or replacing the battery pack:

- o Do not attempt to replace individual batteries of the pack or substitute other battery types.
- o Do not dispose of battery in fire.
- o Dispose of a used battery promptly in accordance with local Environmental Protection Agency (EPA) regulations.
- o Visually inspect the battery for corrosion. If corrosion is excessive, the battery pack may require replacement (contact Dranetz Customer Service Department).
- o The batteries have a safety pressure vent to prevent excessive gas build-up and corrosion indicates that venting has occurred. Possible causes of venting are: a defective charger, excessive temperature, excessive discharge rate, or a defective cell.
- o Removal or replacing the battery pack BP-HDPQ in the HDPQ family of instruments should only be performed with the instrument power OFF and measurement circuits de-energized.

WARNING

Do not attempt to charge the batteries with an external charger other than the Dranetz battery charger, since improper charging could cause battery explosion.

ADVERTENCIA

No intente cargar las baterías con un cargador externo que no sea el cargador de baterías Dranetz, puesto que la carga indebida podría hacer que explote la batería.

AVERTISSEMENT

Ne pas tenter de charger les batteries au moyen d'un chargeur externe autre que le chargeur de batterie Dranetz, car un rechargeement fautif pourrait entraîner l'explosion de la batterie.

WARNUNG

Die Batterien sollten nur mit dem Ladegerät von Dranetz geladen werden. Die Verwendung eines externen Ladegeräts kann zu einer Explosion der Batterien führen.

INTRODUCTION

The Dranetz XBC-HDPQ is an external battery charger capable of charging the BP-HDPQ battery pack used in the HDPQ family instruments (Xplorer, Xplorer 400, Guide, and Visa). This accessory is used to charge battery pack(s) independently of the instrument.

The XBC-HDPQ external battery charger has two current charge settings of 1A and 2A. In the 1A setting the BP-HDPQ battery pack will fully charge in approximately 2 hours. When in the 2A charge setting the battery pack will fully charge at a rate of approximately 1 hour.

The XBC-HDPQ can be powered by a universal input voltage range of 100-240 VRMS , 50/60Hz and has an IEC 320 input connector.

There are 4 versions available as described in the following table. As shown below, there are 4 versions of the XBC-HDPQ available, with the only difference being the line cord provided.

Order Number	Description
XBC-HDPQ-US	External Battery Charger XBC-HDPQ, and US 125V Cord Only
XBC-HDPQ-EU	External Battery Charger XBC-HDPQ, European 250V cord, and US 125V cord
XBC-HDPQ-UK	External Battery Charger XBC-HDPQ, UK 250V cord, and US 125V cord
XBC-HDPQ-AU	External Battery Charger XBC-HDPQ, Australian, 250V cord and US 125V cord

CHARGER OPERATION

WARNING

Charge Dranetz BP-HDPQ battery pack ONLY.

CAUTION

Disconnect battery pack from charger after battery pack is fully charged. Continuous charging of a fully charged battery pack can degrade battery performance.

The following describes basic operation of the XBC-HDPQ external battery charger and its applications.

1. Set the charge setting to either 1.0A or 2.0A
1.0A - the battery will fully charge in approximately 2 hours.
2.0A - the battery will fully charge in approximately 1 hour.
2. Connect the battery pack to the 4 pin polarized output plug of the XBC-HDPQ before powering the external battery charger.
3. Connect the applicable female end of the power cord (US, Euro, UK, or Australian) to the input power connector of the battery charger
4. Connect the plug end of the applicable power cord to an applicable outlet power source.
5. Once the charger is powered the LED illuminates “red” indicating the battery pack is charging. At the end of the charging cycle, the LED illuminates “green” indicating the battery pack has been fully charged.
6. After the battery pack has been fully charged disconnect the power cord first and then the battery pack from the charger.
7. If charging multiple battery packs disconnect the power source to the battery charger and then disconnect the battery pack from the charger for each charge cycle.

Always refer to the applicable User's Guide for additional information concerning installation, operation, and connections of Dranetz or Original Equipment Manufacturer's instructions applicable to your installation.

General Specifications

XBC-HDPQ External Battery Charger

Input Voltage	100-240 VRMS
Input Frequency	47-63 Hz
Current Output	2A Max

Environmental:

Operating Range	0° C to 40° C 20% to 85% RH (non-condensing)
Storage Range	-40°C to +70°C
Altitude	2000m (6560ft) maximum
Installation Category	Category II, Pollution Degree 2

Dimensions:

Weight	0.6lb (272g)
L x W x H	4.7 in x 2.4 in x 1.5 in (120mm) x (60mm) x (38mm)

Statements and Notices

Statement of warranty

All products of Dranetz are warranted to the original purchaser against defective material and workmanship for a period of one year from the date of delivery. Dranetz will repair or replace, at its option, all defective equipment that is returned, freight prepaid, during the warranty period. There will be no charge for repair provided there is no evidence that the equipment has been mishandled or abused. This warranty shall not apply to any defects resulting from improper or inadequate maintenance, buyer-supplied hardware/software interfacing, unauthorized modification or misuse of the equipment, operation outside of environmental specifications, or improper site preparation or maintenance.

Statement of reliability

The information in this manual has been reviewed and is believed to be entirely reliable, however, no responsibility is assumed for any inaccuracies. All material is for informational purposes only and is subject to change without prior notice.

Notice regarding proprietary rights

This publication contains information proprietary to Dranetz. By accepting and using this manual, you agree that the information contained herein will be used solely for the purpose of operating equipment of Dranetz.
